The Black Pearl Shipwreck!

One gloomy day, Pirates Phil and Wayne were sailing across Slimy Ocean. They were feeling excited because they were heading off to find some treasure. Phil was the nice neat pirate, but Wayne was untidy and smelly. Phil had white hair and an anchor tattoo on his forehead. Wayne had a dirty grubby beard and a 'watch' tattoo he had drawn himself! The ship was called the Black Pearl, but really the name was no good because the only paint they had been able to find was bright fuchsia pink. They had covered it with yellow stars and multi-coloured flowers. They had even put lobster claws to pin the sails together!

All of a sudden, a terrible storm came. The waves were crashing against the Black Pearl. The thunder was crashing like a pair of cymbals. Wayne started screaming like a girl and went to hug his purple and pink teddy bear! Phil climbed up the sails to save his colourful parrot.

The blue thunderclouds in the sky came rolling in like the waves. Wayne was so frightened, he nearly fell off the boat. He let go of teddy and teddy got struck by lightning!

Both pirates dived into the hold of the ship and hid.

The sun started to come out, but suddenly a final bolt of lightning hit the Black Pearl. Then BOOM!

The mast snapped off and Wayne screamed even more like a baby. As it fell, it nearly squashed the Parrot. The ship smashed into loads of pieces which fell on top of small Wayne and frightened Phil.

They were catapulted off the ship and landed head first in the sand. When they stood up, they had soft, golden 'sand' beards and moustaches.

They heard loud, beating drums...

The drums were getting louder. They stepped forwards to find out what was making the sound. They saw a very big, scary tribe of people. The tribe were wearing masks, half coconut shells painted with black zigzags on. They had middle sized feather headdresses and red ripped robes.

Wayne started dancing to the beat of the drums. Phil hid his head in the sand because Wayne was dancing so badly. The tribe circled Wayne and Phil and got green poisonous spears out. Wayne and Phil began to think they may become a sacrifice!

Wayne stopped dancing and Phil threw sand into one of the tribes faces!

The tribe leader got called forward. She wore a blue robe instead of a red one. Wayne's mouth gaped open because she was the most beautiful woman he had ever seen! The tribal leader said "A blom blum blum?"

Wayne mumbled "What are you saying, you attractive woman?"

Phil answered for her, " She said, would you like some food and water?"

The tribal leader picked Phil and Wayne up and took them to the tent. The floor was covered in feathers, it was very bright and the sides were covered in spiders. There were some tribe people sat on tiger skins and were eating tarantula legs from a dish made out of vines.

The tribe leader said " Wack wang wallop Repton." She painted with blood onto the tent walls the words 'My name is Repton'.

She continued " Blum baba bluma?" - what do you want from me?

Phil painted on the walls " Barrack-a-bamb twob?" Wayne looked confused. Phil explained it meant can we have a ship from you?

Wayne asked Phil to write a message to Repton. He wrote "Chiwawa moo moo voffy". It meant 'my friend fancies you.'

She got so excited, she swung her arms up in the air and shouted "Cha cha cha!!!!"

She ran over and knocked him over and started to squeeze the life out of him. Repton went and fetched her identical twin sister, she appeared in a blue robe as well. The only difference was she had a mole on her nose.

"Wack wang wallop Marshall" she said.

Phil said "Vah vah voom!" - I like you baby!

The twins wrote 'boo, boo boo' which meant Yes you can have a ship. The two pirates got over excited.

Five days later, Wayne, Phil, Repton and Marshall prepared to leave the beautiful island. The twins were going because they also wanted to find the treasure. They wanted it to plan their weddings!

Just before they left, the twins made new sails for the new ship. The sails had pink and red love hearts sewn onto them. Phil and Wayne had called their new ship 'The Jewel'. It was silver coloured, using paint they were given from the tribe. It had golden handles and a sparkly purple ship's wheel. The mast had diamonds painted on it, and rubies were painted on the deck. They sailed away into the sunset. Wayne was snoozing on the deck. He sniffed, he sniffed again. "TREASURE!" he shouted. The others all dashed onto the deck. Wayne said "Over there in the gloomy cave."

Phil believed him and turned the ship around. The cave was quite a distance from them, but they were travelling at a fast speed. They soon reached the cave. Wayne and Phil got into the lifeboat and looked overboard. They saw a skeleton under the water. They screamed!

There was another skeleton hanging from the cave roof, pointing into the corner of the cave. Then they saw the treasure covered in spiders webs. There were loads of sparkling diamonds, dazzling blood red rubies and a letter. The letter said "Find the beach in Australia called Pirate Heaven. There you will find a massive diamond under the sea."

The pirates grabbed the treasure and letter and retreated to their ship. But the Ungleese tribe were waiting...
